Compliant accessory connector list

(*1) When connecting in parallel, refer to "Duplex Configuration Layout" on DIASYS Netmation User's Guide "DUM-I1E11 D-Ring Network Instruction Manual".

(*2) This accessory connector does not built-in RTD. It is recommended to apply accessory connector of the RTD built-in type.

(*3) Only LSACT01 is correspond with module for safety instrumentation. (Other accessory connectors are not applicable.)

(*4) Accessory connector used only for round terminals. However, please note that due to physical restrictions, only 8 channels can be used.

(*5) The connector insertion of the backplane is made by Widemuller, the accessory connectors for LSACT19-R/L to LSACT32-R/L are made by Phoenix Contact.

Since connector of different connector makers are to be fit together, it can not take for any manufacturer to guarantee the operation. When using, please judge as appropriate.

(*6) LSACT33 to 35 is LS AIM01 Module only. Do not use for other modules.

When using, please read the instruction manual attached to the product carefully and use it properly.
